Built around what makes July, July.

July carries a different weight to it. Monsoon rewrites what people crave. Guru Purnima, Hariyali Teej, Nag Panchami, World Nature Conservation Day, Global Tiger Day and the opening of Sawan all land in the same four-week window. This calendar is shaped around those moments — not around a fixed product list — so each brand can step into the cultural beat that fits it best.

How this month is being measured.

REACH & FOLLOWERS

Fifteen Reels carry the month's reach engine, each placed on a cultural or seasonal moment people already care about.

TRUST & SAVES

Educational carousels build the save corpus — the format the audience returns to, the format the algorithm rewards.

SALES & DMS

Sales-oriented posts cluster into the second half of the month, riding Teej and Sawan when buying intent is naturally highest.

Fifteen Reels. Placed where July's attention already is.

Three Reels per brand. Three per brand. Each one anchored to a cultural moment, a seasonal craving, or a viral content fo
